

ANSH GAUR

Data Science & Machine Learning Enthusiast

Email: anshgaurx@gmail.com Location: Meerut, Uttar Pradesh, India

LinkedIn: linkedin.com/in/anshgaur GitHub: github.com/anshxgaur

CAREER OBJECTIVE

Motivated Data Science undergraduate with hands-on experience in Python, Machine Learning, Deep Learning, and NLP. Seeking a Data Science / Machine Learning Internship to build, deploy, and optimize scalable ML models and deliver data-driven solutions.

EDUCATION

B.Tech in Computer Science and Engineering (Data Science) 2024 – Present

PSIT Kanpur (Pranveer Singh Institute of Technology)

Relevant Coursework: Machine Learning, Data Structures, Statistics, Database Management Systems

TECHNICAL SKILLS

Languages: Python, SQL

Machine Learning: Regression, Classification, Clustering, Anomaly Detection, Predictive Modeling

Deep Learning & NLP: Neural Networks, Natural Language Processing (NLP)

Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn

Frameworks: Flask, FastAPI

Concepts: Feature Engineering, Data Preprocessing, EDA, Model Evaluation, Model Deployment

Tools: Jupyter Notebook, Git, GitHub, VS Code

RELEVANT EXPERIENCE / PROJECTS

Anomaly Detection Voice Assistant (NOVA) GitHub

- Developed an AI-powered anomaly detection system using Python and unsupervised learning algorithms
- Identified irregular patterns and outliers in datasets improving detection efficiency
- Designed a scalable pipeline and implemented model deployment using Flask APIs

Corporate Ecosystem Prediction System (NEXUS) – Thapar Institute GitHub

- Built predictive models using supervised learning techniques for structured datasets
- Performed feature engineering, preprocessing, and evaluation using Scikit-learn
- Improved model performance through hyperparameter tuning and cross-validation

F1 Data Analytics System GitHub

- Built an interactive analytics system to extract insights from raw datasets
- Leveraged Pandas, Matplotlib, and Seaborn for data analysis and visualization

CODING PROFILES

- Solved 180+ DSA problems on LeetCode covering arrays, graphs, and dynamic programming
- Achieved 5-star rating in Python and 3-star in Problem Solving on HackerRank

CERTIFICATIONS

- IBM Data Science Professional Certificate (Coursera)
- IBM Generative AI Engineering Certificate
- Generative AI for Data Science (Coursera)
- Mathematics for Machine Learning (Coursera)

ACHIEVEMENTS

- Secured 3rd Position in GGSIPU Hackathon (HACKXTREME)
- Participated in PROTODASH – IISc
- Participated in CODEFEST – NIT Durgapur
- Participated in ECLIPSE 6.0 – Thapar Institute of Technology

ADDITIONAL INFORMATION

Strong problem-solving and analytical skills with a passion for AI, Machine Learning, and Data Science.
